FOR IMMEDIATE RELEASE

EZCheck Once Again Emerges as Top Industry Competitor

HOUSTON, November, 2005 – EZCheck[®] Check Services, Inc., announced that it has once again been named among the fastest growing check guarantee companies in the nation, according to the September issue of The Nilson Report. EZCheck's authorization volume grew by 52% in 2004, easily outpacing the growth rates of its competitors. In fact, 2004 saw six of the twelve largest check guarantee companies actually shrink or experience no growth.

"EZCheck's dramatic growth rates are the result of the excellent services provided by our sales partners, equipment and service providers and our employees," noted Randy Rutledge, president and CEO of EZCheck. "I am extremely proud of the effort and commitment of our partners and employees in providing our retail customers a superior service."

EZCheck, the nation's ninth largest check guarantee company as measured by number of clients, also saw its merchant base increase 19%. That increase was also the largest increase among the top tier companies processing over \$100 million annually.

This marks the third time in the last three years that EZCheck was recognized by The Nilson Report as one of the top two fastest growing check authorization companies. While specific numbers are not available, EZCheck is also positioned among the largest half dozen check guarantee companies offering electronic check conversion as its primary offering.

The Nilson Report annually ranks the top firms providing check verification and guarantee services in the U.S. The publication, headquartered in Oxnard, CA, is the leading source of news on the payment system industry for the last 32 years.

About EZCheck
