EZCheck Signs Agreement with Commerciant® to Distribute Mobilescape 5000

Wireless, handheld Mobilescape 5000 processes checks anywhere, provides new revenue streams for agents

HOUSTON, Texas – April 5, 2006 – Commerciant LP, the leader in wireless payment processing solutions, and EZCheck® Check Services, an information and payment services company offering the most advanced check systems in the industry including electronic check conversion, today announced that they have signed an agreement for EZCheck to resell Commerciant's market leading Mobilescape 5000 wireless check and credit card processing solution.

"The Mobilescape 5000 provides a powerful extension to our check payment solutions, and will enable us to further expand our service beyond traditional retail," said Don Singer, vice president of marketing at EZCheck. "Check sales in the residential services area are growing rapidly, and the addition of Mobilescape 5000 to our complete line of customized check services will not only serve our customers well, but enable our reseller network to increase revenue and uncover new profit opportunities everywhere check payments are made."

The combined offering will help businesses speed the collection of funds and reduce payment processing risks in the field. In addition, ISOs and agents who represent EZCheck will be able to create new revenue streams by targeting under-served markets such as residential services and home food delivery.

"Combined with EZCheck's check payment solutions, the Mobilescape 5000 will allow residential service businesses to easily and securely deposit a check without ever leaving the customer's house, which means more time selling and less time managing paper and going to the bank," said Marc Beauchamp, vice president of indirect sales at Commerciant. "Our agreement with EZCheck provides merchants with the latest technology in electronic check conversion, check guarantee, and check verification and collection services."

Commerciant engineers, designs, customizes, activates and supports its wireless solutions from start to finish, and manufactures all devices in the United States. The Mobilescape 5000 will be commercially available in May, 2006. For more information, please download the product data sheet at www.commerciant.com or call Richard Howell at 713-735-5526.
