**FOR IMMEDIATE RELEASE**

**EZCheck Has Successfully Deployed The Orion All-In-One Payment Terminal From 4Access Communications**

**Houston, TX** – EZCheck an information and payment services company offering the most advanced check services in the industry including electronic check conversion, today announced they have deployed and support the Orion all-in-one check reader, imager and card solution from 4Access Communications Company. In addition, EZCheck uses the 4Access web-based Archive and Retrieval System and the 4Access web-based Terminal Configuration Server.

“I have a lot of experience working with combined check and card readers,” said Don Singer, Vice President of Marketing for EZCheck. “The Orion by 4Access is the best in its class, especially when it comes to reliability, performance and functionality. 4Access offers numerous options for card processing and support is easy for our team through use of the Archive Server and Configuration Server products. I have yet to swap out an Orion in the field. Their service is equal in quality to their product. The 4Access team is extremely responsive.”

The Orion from 4Access Communications is a comprehensive, stand-alone solution for reading and processing checks, credit cards, debit cards, loyalty cards, EBT cards and gift cards. With an open operating system and unprecedented power, Orion supports multiple applications simultaneously, yet independently. Orion’s unique recognition technology integrates MICR with optical character recognition in real-time to produce the most accurate check read possible. Following the check read and image capture, Orion confirms and verifies that the images are securely and completely transferred to the 4Access Archive and Retrieval System.

“The management at EZCheck has a tremendous amount of experience marketing all-in-one check imager and card readers,” said Steven Davis, 4Access Communications’ President and CEO. “They are pioneers in the electronic check industry and we are pleased to have them as a partner.”

**About EZCheck**

EZCheck is a leading information and payment services company serving thousands of businesses nationwide in a wide variety of industries. As one of the initial pioneers in electronic check conversion at the retail point-of-sale, EZCheck has leveraged its advanced technology and systems to expand its product line into adjacent markets including accounts receivable conversion, recurring payments and checks by phone services. In addition, EZCheck provides a complete line of check guarantee, check verification and collection services to the business community and is ranked among the top providers of check services in the country. EZCheck is dedicated to providing unsurpassed value and service to its customers. The company markets through a national network of independent sales organizations and supports operations

from its headquarters in Houston, TX. For more information, please visit EZCheck's web site at [www.ezchk.com](http://www.ezchk.com).

#### **About 4 Access Communications**

4Access Communications, a private company headquartered in Chicago, Illinois, produces revolutionary point-of-transaction software and hardware. Point-of-transaction devices from 4Access Communications combine the benefits of an open operating system with superior check reading and imaging capabilities. 4Access Communications provides complete check solutions from transaction initiation and transmission to image retrieval using the web-based, 4Access Archive and Retrieval System. Ideal for multiple application environments, products from 4Access Communications use universally recognized software development tools that provide the simplest, fastest and most comprehensive application development environment available for point-of-transaction devices.
