

*EZCollect*SM

FREE Check Collections

*EZCollect*SM provides merchants with **NO COST** electronic check collections on NSF (non sufficient funds) checks.

No fees! No equipment required! No authorization required!

Benefits

With EZCollect, your organization can enjoy the benefits of NO COST check collections:

- Simple, NO COST electronic collections of NSF checks
- Returned checks can be automatically directed from your bank to EZCheck
- Collected checks paid monthly via electronic deposit
- No equipment or check authorizations required
- Available collections on all other returned checks

How It Works

1. Merchant sends EZCheck a service agreement and voided check.
2. EZCheck sends out welcome kit with instructions and materials.
3. Merchant posts EZCollect notices at each point-of-sale location.
4. Merchant accepts checks as they normally do in their business and writes their EZCheck merchant ID number on checks prior to depositing in their bank.
5. Merchant forwards their returned NSF checks to EZCheck for free electronic collections. Any checks that clear are reimbursed to the merchant for **full face value**.
6. EZCheck will collect ineligible checks if the merchant wants this option. Any checks collected under this option are reimbursed to the merchant at 65% of face value.
